Monetti since 1904

The turn of the 20th century saw the opening of the first 'Monetti' store at its historic headquarters in via Santa Brigida. Its founder Guglielmo senior, a qualified technician-watchmaker and a far-sighted pioneer of his times, defied public opinion by believing in the water-resistant properties of Rolex watches, an intuition that resulted in the establishment of the Monetti-Rolux partnership, a tradition perpetuated since 1932.

Over time, Monetti also began selling other coveted watch brands and, in 1968, Guglielmo junior began to make a name for himself in the world of high-class jewelry, not only by developing his own designs but also by partnering with renowned goldsmiths like Pomellato.

Today, Monetti's two Naples-based stores in **via Dei Mille** and **via Santa Brigida** are still considered a reference point in the city's historical and commercial tradition.

PHOTOGRAPHY . PESCATORE DI IMMAGINI

Fisherman of images. On display 70 black and white images that retrace the creative universe of Robert Doisneau, one of the most celebrated photographers of the twentieth century. The visitor is taken on an exciting walk through the truest Paris, that of the bistros, the clochards, the ancient professions, the markets of Les Halles and the existentialist cafés of Saint Germain des Prés. The favourite subjects of Doisneau's photographs are Parisians: women, men, children, lovers, animals and their way of life in this timeless city.

ART. FROM THERE WE CAME OUT AND SAW THE STARS

Site-specific installation by Turkish artist Hera Büyükaşçıyan as part of Underneath the Arches, a contemporary art program curated by Chiara Pirozzi and Alessandra Troncone, in collaboration with the Association VerginiSanità. The work involves the viewer, making him feel like he is immersed in a basin of water. By reversing the perspective of vision, from the bottom of the water to the foundations of the city, the artist lets emerge suggestions derived from stories of the ancient city of Naples that blend with the stratifications of the aqueduct.
